WORK EXPERIENCE

Toll Brothers

Product Designer / Experience Designer | New York, NY | Aug 2021 - Jan 2026

Company: Fortune 500 homebuilder for luxury residential real estate with \$7B revenue

- Created **Blueprint**, the company's first digital design system adopted by 10+ cross-functional team members in design, marketing, and engineering. Reduced new page design time by 30% and established WCAG 2.2 accessibility standards.
- Developed AI-assisted design-to-code workflow with **Figma MCP**, **Storybook** (component library) and **Claude/Codex** that created prototypes in hours and streamlined engineering handoff.
- Worked with data analysts to design and A/B test responsive web features that quantitatively increased lead generation (main conversion metric) by 3% across high-traffic pages with 40k daily visits. Designed lifestyle content on search and landing pages for SEO and GEO.
- Led end-to-end design for the Digital Studio initiative from user research to design, including the floor plan configurator, digital catalog, and collection builder (internal) that streamlined complex customization flows with thousands of SKUs.

Excellis Interactive

UI/UX Designer | King of Prussia, PA | July 2019 - May 2021

- Co-led UI/UX design for the Comcast Campus App. Conducted user research and created prototypes for native mobile flows for room reservations and guest registrations.
- Redesigned user experience, interaction design, and product features of the Kronos SaaS app.

Turn5

UI/UX Designer (E-commerce) | Malvern, PA | May 2018 - May 2019

- Conducted user research and created wireframes for e-commerce features and user flows that increased user engagement by 15%. Product features include customer image gallery and product recommendations that upheld UI standards for multiple e-commerce sites and the mobile app.

EDUCATION

Swarthmore College

B.A. in Biology | Sep 2012 - May 2017
